The Methods and Purpose of Vampirism

Vampirism is the religion of those who would transcend the physical state to that of the spirit. The spirit plane is better known as the Astral Plane and is generally entered through dream states or deep meditation. The religion of the Vampire is a Luciferian advanced mental state of individual improvement by training and controlling the mind.

The religion of Vampirism is derived from the Priesthood of UR, being living vampires through Hekal Tiamat, or the Temple of the Vampire. The Temple is the gateway towards advanced vampiric sorcery and the development of this state of existence. To walk the Left Hand Path is to know of both good and evil, we become the very serpent from which opened our eyes.

We acknowledge that as being Black Magickians, we are upon the Left Hand Path alone and it is up to us to become

better individuals by ourselves. The Black Magickian does not necessarily agree to the concepts of 'Good' and 'Evil', as these are moralistic and contemporary interplays of conditioning psychology; however this also represents that the individual must be balanced and strong of Will, a character foundation is essential for those upon the path.

Vampyrism is the essence of the most dangerous and beneficial workings of Black Magick. Black Magick is defined in the context of this book as "The Search for the secret knowledge of the self, and to explore avenues of isolating the psyche to achieve immortality". Black Magic is the use of Magick and Witchcraft (i.e. Sorcery) for means of focusing control on the magicians' earth-bound environment and self - interest. Magick (Holy Magick) is the focus of causing the self to ascend to achieve the Holy Light of Ain Soph, or Godhead. Luciferian Magick is just that, although is balanced with the opposite being Black Magick. The Luciferian Ideal is to master both black and white Magick, from which both

shall bring each closer to God and the opposer.

The confusion between black and white magick is not that we are moralistically defining the separations between, say black and white but actually directing the focus - each reaches into specific areas of the self and are essential to the individual becoming something more advanced.

Vampirism is not, a belief system that involves harming others. The living Vampire does not hurt any humans due to the fact that they are generally a source of continued existence, based within the aspects of astral blood, or life force. For this reason, the Luciferian, does not condone or accept the harming of any humans or animals.

There are specifically two aspects of Vampirism which define a normal manifestation within society. It is defined as THE DAYSIDE and NIGHTSIDE. The mastering of both are essential towards a higher development of consciousness and the mastery of sorcery and Magick.

The Dayside:

This is the waking conscious of all individuals, the non-superstitious, logical aspect of the mind. This is essentially our every day, physical world approach of mind. This is the area from which we seek to do well and excel in our jobs, family life and to improve our surroundings and gain knowledge. The dayside is the waking aspect of applying what is manipulated as reality from our obtainment in the Nightside. The Dayside is the area of practical application of social interaction, the material living aspect from which we conduct our day-to-day lives.

The Nightside:

The belief (chosen system of allowing the brain to process inspiration into action) of Magick, Witchcraft and Sorcery is alive within the Nightside. This is the area from which we leave our physical bodies and

commune with the Undead Gods, drain Blood Essence from the sleeping, attend Sabbats and astral conclaves, and practice both Holy and Black Magick. This is the aspect of our immortality and how our psyche may be bound to the earth for as long as we wish. If we were to physically die, the immortal aspect of our self would be able to travel body-to-body and sustain for ages. The Nightside is our area of which we shape shift, evoke Qabalistic Demons and Angels, absorb other spirits and become something isolated and independent. Magick and Sabbatic Witchcraft are alive within this arena of Anon!

There is also another aspect of astral vampirism which is completing in accordance with the Thelemic ideology, "Do what thou wilt shall be the whole of the Law". Each individual has the right to develop his or her self in the manner in which they choose, to uplift themselves to the Light of Lucifer and the descend to the darkness of Tiamat.

Many may question the significance of this however, and how Thelema may relate within a vampiric context. It does not, directly represent vampirism or such a long hidden art. It does, however symbolize the ascending point of the positive and life embracing Luciferian concept of immortality. The Vampiric current reaches out to those who may be of our blood, and to bring them to the path of Tiamat.

It is known as well that not everyone is a natural to the path of Vampirism, it is one of the few - a solitary path. The darkness of which one would embrace is that of shadows and sorcery, of the dangerous art of creating servitors which feed from the astral life force contained in blood. But there is much more than this to vampirism. The Supreme Vampyric Rituals describe a new type of individual, a Vampyre Sorcerer which is capable to rising from the flesh of his or her own body and during the hours between dusk and dawn, astral traveling and feeding from the sleeping.

The Vampyre sorcerer is also able to communicate with the dead, create shadows and send forth demonic elementals to attack or defend against enemies.

This of course comes with a high responsibility. The abuse of power has its own prices. The sorcerer who would transfers the flesh into the spirit, to damage and harm many who would have not trespassed against he or she, will in time cause the destruction of the self.

It is pertinent, if not completely necessary, that under the laws of Nature (from which Magick flows and Dark Witchcraft flows opposite) one should harm not one who would not deserve such.

As we advance as living and isolated beings who seek to become something advanced, we must realize the significant of patience, caution and reserve. If one smites you, in return destroy them with your developed ability of Black Magick.

If you argue with someone, and you become angered - do not curse them but

learn from the argument. Practice good judgment based on the situation.

The Predator must balance the laws of nature with the law of the strong! The mature mind that would develop from this practice and experience should be completely aware of the importance of this message. The universe, commonly known as "God" is both destructive and creative, there is no "good" or "evil" as these are socio-ideological functions of control. Know them and their purpose, and reside within the knowledge of this fact.

Black Magick, Sorcery and Vampyrism is first introduced within "The Book of the Witch Moon", which is a grimoire containing the art of Magick and the dark Sabbatic mysteries of Sorcery. While the book deals with numerous disciplines, it stands at the gates of the shadow from which Choronzon would emerge.

The Black Tome of the Vampyre is however a step towards the darkest of

Magick! I have held back from issuing any of the works from the Black Order of the Dragon because so many fell prey to the astral forces they so thought to master.

I recall one poor individual who became host to 5 demonic personalities- this chap was completely stable before his inclusion within the Luciferian lore. Another specific problem within Vampirism is the total lack of understanding that arises from many who are unable to differentiate the Dayside from the Nightside.

Essentially, the Vampiric Priesthood emerges from Sumeria and is actually defined as the Priesthood of UR. The Temple of the Vampire are the actual decedents of this tradition and carry on accordingly. We hold total respect for the TOV and its work, even though we may be slightly different in approach but affiliated in aims.

Vampyrism, Through the archetypical symbols which have existed since the Sumerian period, such as one of the first known cult of Vampyrism, HEKAL TIAMAT, to Vampyrism in

Transylvania as in the reality of the original Order of the Dragon, in which European hero Vlad Draculae was a member of, to current Vampyric covens through the centuries, to current period covens have always, intentionally, blinded the masses. The use of Sumerian lore within a modern context is used as a focus and means to an end, allowing a fruitful imagination to allow the mind to advance! Inspired lore is perhaps one of the most significant forms of launching magick, specifically an imagination is essential to creativity. It must first be known that vampyrism is NOT at all a simple, or relatively quick path for everyone. It is SIMPLY, NOT a path for everyone. The Luciferian path allows many avenues of mastery and study, but is in turn littered with bones of the dead. Do not fall prey to forces which you cannot comprehend. Vampirism is an art which is deadly and dangerous to the mind if one is not of the blood, and should be approach with the utmost caution.

Vampyres look upon their personal being as GODS, the humanistic concepts

of mortals do not guide us in anyway either. To become vampyre, the individual must tear away all strains and weaknesses they have picked up since their first birth.

This is a part of social condition from which we must deprogram and form a new system of thought, advancement with freedom. However, freedom is a dangerous thing, thus we must ALWAYS and without fail act within our societies moral and legal codes. The Luciferian has NO room nor support for criminal activity, racism or bigotry of any kind. We must advance beyond such acts and seek to illuminate our minds with knowledge and understanding for different paths.

Do take note, this is not any easy thing to do, however, observe, this is only the beginning. The individual proceeding down this path must push his/her physical body to the limits, as well as testing mental and developing psychic strength. Psychic strength is highly important for developing the Vampyric will. Through a period of several years, the individual will

slowly build the character needed for the individual to immolate his/her essence with the crimson of the dragon.

That which does not progress, perishes! This is very true and realistic. Any initiate interested in the Luciferian Path will be introduced into a very harsh will training and Alchemical change process. Most of this is done in Hermetic rituals, separated from all comrades, friends, and lovers. This the ONLY way which will offer the building material for a GOD or GODDESS, the Luciferian Path within our Shadow tradition demands a strong and open mind.

While actual human blood (not animal) holds psychic energies obtained in advanced vampyric rituals, BLOOD ESSENCE (Astral lifeforce) holds the highest significance for such, incorporated through many different levels, is the path or partial key for immortality. The initiate vampyre will learn to set his/her mind from the individual human and realize ALL progressive change and evolution is caused by him/her ALONE! The Vampyre IS

god itself, however the process of self-Deification announces a new responsibility - We must seek to advance and explore the psyche and how we may isolate this, leave our flesh in Luciferian Shadows (astral projection) and push the very limits of our minds and being to seek the Throne of Leviathan.

Lifeforce (BLOOD ESSENCE) is drained from humans through astral contact, as well as clairvoyance among others. The powers of astral hunting through dream and drinking the purest lifeforce is ONLY best described through the experience itself. The symbol of the vampyre who drinks blood from sleeping humans (Opfers) is not far removed from the astral vampyre predator - Known as Varcolaci - who drains lifeforce from the sleeping humans astral body. Through the nightside, the vampyre through will and practice, can shiftshape, to hunt amoung the shadows. The forms can be several, Varcolaci (a form of demonic bat-wolf and dragon resemblance), to wolf and bat.

This is all based on general and simple scientific law.

Vampyric communion is an essential part of vampyric survival and renewal.

Secrets of Vampyric communion are first described in "ART OF WAMPHYRI" and further in "CTHULU".

The Luciferian Path is being guided by those who communicates as and with the Undead Gods being Vampires, who are able to separate themselves on the Astral plane. Our goals are quite the numerous.

Time will tell the significance. Our sigils to invoke the essence are two: The Varcolaci Pentagram (also called Devilcosm), through the sphere, lifeforce is transferred, the Undead then return the gift to those undertaking the mirror working. Nefarious shadows haunt any human uninitiated. The other symbol is the Nachttoter seal, the symbol of Nachttoter and its vampiric family.

The Art of Astral Projection and Wamphyric Awakening

by Baron Drakkheim Abaddon

1995

The art of transferring physical consciousness into the Astral Body is known as Astral Projection. Astral awakening is a very important aspect of Wamphyrism. This art must be very well understood, as it is a crucial phase in the Wamphyric development. It requires a high degree of concentration and practice. Naturally, this requires willpower and patience.

Those who are on the dark path of the Wamphyr and who have developed a talent in the art of stealing other's lifeforce but have not yet begun the practice of astral projection, can be sure that their evolution and absorption into the Trinity of Akhkharu / The Throne of the Beast will be very short and quite useless for them.

One of those two practical points is of extreme importance. Wamphyric survival Immortality, this goal must

be achieved at all costs in order to be resurrected on a higher plane. To become undead, to unite with what is called Moroii, you must be able to separate the astral body from the physical one. For this you should of course have already prepared yourself by the awakening of the unconscious into different spheres.

There are a few books about astral projection, however you will not find much written about this so unique art of ours... the art of Wamphyrism. Astral projection is by no means the "goal" of the resurrection of our kind. In truth, it is only the beginning, to be followed by resurrection to the Throne of the Beast.

For most Vampires, there are two basic and fundamental sides to the balance, the day and the night. By day, the Vampire operates very discreetly and secretively, constantly careful to keep our art from the masses. During the day, you should follow your profession in normal clothes, according to your personal preferences. Never let the art of Wamphyrism fall into the

hands of the victims (humans). Remember that Vampires do not exist for the crowd. You will be aware of your abilities, such as telepathy, or whatever you have achieved. Drain life force from the victims by touch, as by money transfers, by simple handshaking, and eventually you will be able to syphon victims out by other means, which I, as a Wamphyri Adept and member of the "Temple of the Vampire", am not allowed to tell you about.

To those who take this path full of hardships, and master it, in time this knowledge will reveal itself. The Wamphyr knows the importance of manipulating the herd. Infiltrate the system and disrupt it to help us and our kind. In destruction there is always creation.

At night, the Vampire works in secret on his black art, unseen by human eyes. Wampyric magic is a complicated process that requires many steps to work one's way up to Adepthood.

To gain immortality, you must continue to live in the "shell" and

know how to use its powers. This requires sacrifice and hard work. This obviously means behaving intelligently and according to the rules of logic.

It does not mean living without challenges, but rather the exact opposite! A magician knows these challenges and he lives life to the fullest; always searching for development.

To start with astral projection, first meditate and clean your mind from disturbing influences. It is recommended that you burn some incense the night before you begin. Meditate first in silence, of course in a dark room, preferably one specifically used for magic, or one used for sleeping.

First, focus on the human herd (the victims), see yourself in a scenario that corresponds to your circumstances, and see your astral body: transform it into a batlike creature, a wolf, or something similar. Meditate for about 1 to 2 hours. Once this is accomplished, you are to practice the Ritual of the Werewolf, or

some other predatory ritual. Once this has been accomplished with concentrated thought and will, you should be in perfect mental condition for astral projection.

Now lie down, and make sure that you will not be disturbed once you have begun. See yourself lying there, relaxing every muscle and every part of your body, from the feet up. This should take about 10 to 20 minutes.

Once you are completely relaxed, feel the shape you felt in the previous meditation expand, feel every muscle completely relaxed, while at the same time drawing energy that will make you stand up. Focus on this thought and feeling. Feel what you are, what you have to do, and what you will become!

Part I: Fenrir's Unraveling

by Baron Drakkheim Abaddon

Before you dare to enter the horrid kingdom of Wamphyrism, you should search for yourself and understand yourself. The path of Wamphyrism, Lycanthropy and Black Magic is dangerous, filled with trials and tribulations.

This manuscript is intended for those who are of our blood, not for individuals who want to attract attention to themselves and who lack self-knowledge. This manuscript is for all those who want to embrace their shadow side, who want to explore and understand their shadow self.

I have written these manuscripts according to my personal knowledge and experience in the black arts. There are many different and profound topics that I have left out, because you have to have some experiences yourself to know and fully understand what I am talking about.

You will read about the beginnings of the immortal path of Wamphyrism, and possibly begin to study it. You will not only read about this subject, but the gates will be opened in rituals. Also included is knowledge based on my personal practical experience - Studies and pathworkings on the diabolical path of Satanism, Lycanthropy and Black Magic.

For the benefit of the "Black Order of the Dragon" I decided to publish this scriptum, other articles and rites were submitted by other collaborators.

For the elite, Satanism is a life full of trials - by pushing the self to the edge and evolving, the Satanic character is perfected, and this is Luciferian pride.

Through many hard trials, self-development, understanding and positive progress, one may be able to open the gates of the Acausal through one's dark side, one's psyche. Most of the trials of the Left Hand Path can break you,

psychologically and physically. To become a true adept of the Black Arts, you must achieve this through your own experiences, not by reading.

I have found out during the years that - in order to really become a sinister being and to develop as such, you basically have to work alone - no one from the outside should know about your work; apart from those who can help you. You must build the strong character yourself.

There are two titles or sections of our Order, the first is the Black Order of the Dragon, and the second is the Sinister Order of Fenrir.

The Black Order of the Dragon in its essence is Wamphyrism, and the inner circle is made of Wamphyri. We keep a lot of teaching material, a lot of knowledge secret, because it is only for the Wamphyri - and many outsiders would not understand it.

You will read more about and study the Black Arts of Astral Predation (Astral Wamphyrism), Astral Body

Snatching, Wamphyric Blood Rituals and more.

You shall also study the essence of the Sinister Order of Fenrir and try to understand it, for it is in essence and form Satanism, Social Darwinism and Occult Fascism.

Astral path-workings, the development of the shadow side, lycanthropy / mental werewolfery, the awakening of dark archetypes - all of these are separate from the "Sinister Order of Fenrir".

Before you dare to go any further, you must understand that the path to the Left Hand is Occult Fascist - never expect unnatural equality, as this is completely contrary to the laws of Nature. Nature is fascist and so are we!

You will find many sinister archetypes called from your psyche. Akhkharu (Sumerian vampire spirit), Tiamat (vampire goddess, dragon, darkness and prima mater - chaos), Fenrir (Black Wolf of the North, the

sinister one), Satan (descended from the Hellenic accuser, pride, anger, disenchantment, controlling lust and life), Pan (god of nature, lust, similar but not as sinister as Satan), Ordog (Hungarian name for Satan, in this form probably more sinister than Satan in its Hellenic meaning).

Explore these beings, understand them, become them and their essence.

Are you strong enough to resurrect from death (become undead)? The first part deals with actual spiritual undeath join the astral wamphyri that exist forever in the non-material.

Can you call and control the black wolf within you? If so, I tip my hat to you in respect and will joyfully meet you in hell.

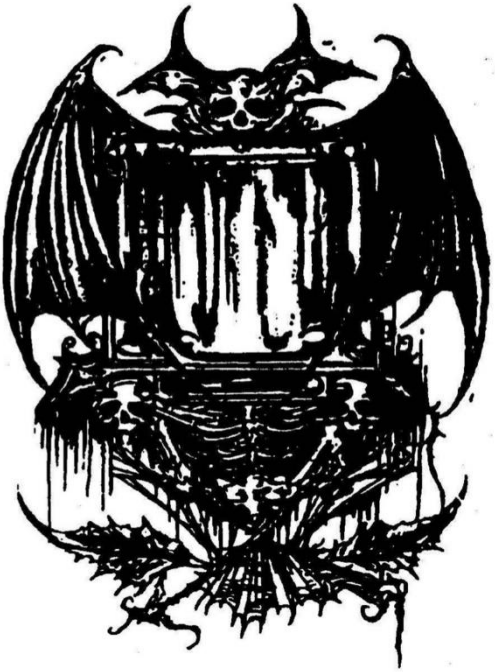
May the cold, shadowy undead claws of the Wamphyri touch you. So be it, if you dare.

Push yourself out slowly with your breath or feel yourself rising. When you use the breathing technique, you

will be amazed at first, but do not be afraid of it. Understand it, know it, know this self-acquired power. Once you have done this successfully, it is up to you how you use this empowerment, according to your meditations and goals.

The second aspect in mastering astral projection is to strengthen yourself on sleeping victims and drain them of their life force. The life force taken from a sleeping person is the purest kind of life force a Wamphyr can obtain.

When a person is asleep, the astral body is less closely connected to the physical, not guarded, let alone controlled, by the sleeping person. The Wamphyr would be able to fly beside the sleeper through astral projection and feed on his unconscious double.



Seals and Symbols of the B.O.T.D

by Baron Drakkheim Abaddon

The Wamphyri Pentagram has great significance and importance in the B.O.T.D.. Dark archetypes are always used in black magic and rituals, and I myself am very fond of symbolism. This is a significant vision about the meaning of the Wamphyri Pentagram:

In a curved and dark dimension, seemingly somewhere between life and death, lies a cold and foggy landscape, full of jagged and cruel mountains. Under the mountains, and by them, a seemingly abandoned and dense forest of pine, oak and beech.

Immeasurable dense fog floats through the land.

Above, in the night sky, a huge skeletal moon rises, though the fog still covers the land. With the eye of your thoughts you see everything; lifelessly you fly over the land. You hear every sound, natural and unnatural sounds of the night.

Suddenly you are drawn a red, burning sphere. This sphere is the radiant of the aura of death, but now of lust, desire and life. A strange and terrifying combination. Everything around you seems even darker, and outside, in the night you hear blood curdling and horrible screams. Strange screams and sounds in the night and when you divert your attention from the red sphere, you recognize a few steps away from you a large and deserted cemetery.

You see gray-white ghostly figures, not fully human in shape, flying around you in irritating trajectories. Your attention is diverted because through the night you see a very large, unearthly even diabolical object flying towards the sphere.

The object, a large inverted pentagram, is carried by two black vampiric skeletal creatures. These fearsome demons drip blood from their fangs and from their long, bony claws.

They fly towards the red sphere, a few steps away from you, ignoring your presence.

You feel their aura even far away from them, it is the most bone chilling cold you have ever felt, their aura is that of death, decay, lust and blood.

As they approach the sphere, winds come up. You feel a pull in the direction of the sphere, but you manage to stay where you are.

In seconds, you suddenly hear dozens of screams and witch-like moans. Quiet laughter that seems miles away, now so close in your mind....

The demons, undead Wamphyri, with their enormous black leathery wings, carry the pentagram and connect it to the red sphere. Loud roars of thunder and the screams become louder and seem to be closer now.

All of a sudden blood flows down from the pentagram. As this happens, a spectral great Dragon rises in the night sky, over twenty feet tall, blood-black, with an aura even more

terrifying than those of the undead who bear the ancient symbol.

The dragon seemed to materialize from mist and other elements of the night. The creature causes streams of blood to run from its fangs onto the pentagram and all over the sphere.

Another earthly wamphyri begins to commune with the Dracul.

This vision was triggered by a black nightmare, a wonderful dream of new beginning and life. This is the use of symbolism as well as the archetype. This is very important for ritual magic.

The other primary symbol of our order is the wolf-dragon bat-wing seal, which spans in the form of a swastika. All are united by a full moon.

The wolf represents the animal instincts that must be awakened in the more evolved man in order for positive evolution to occur. The wolf represents cruelty, primal animal instincts and survival. During your training on this

dangerous path you should learn to survive in nature.

Fortunately, such instincts were triggered in my early youth by family members.

An example for you would be to learn how to hunt properly, how to provide for yourself completely alone in nature. Go through the forest at night, walk quietly, keep your thoughts free and your senses ready.

What surrounds you, what do you hear, what can you smell? The symbol of the wolf represents strength, courage, ferocity and carnal desire.

The dragon represents Tiamat, the mother of the Wamphyri. This archetype lives in swamps of blood, and life force arises from Ureaus. The vampire dragon is darkness and it lives in this dimension (in the causal) as a part of the night. This archetype represents the higher evolution than Wamphyri.

The swastika represents hurling destruction, power and death.

According to brother Karl Nachzehrer, the swastika in its form is the water snake Ea. The symbol of Ea is of four walking goats.

The bat wings themselves represent a symbolic form of the vampire, showing that we are and always will be predators.

The wolf-hook rune at the center of the swastika represents the balance of the opposing forces of nature. Life and death, destruction and creation, day and night. As we walk the earth, it is necessary to observe and understand this balance.

The full moon, which is above everything, means that the night is the key to the immortal path of the Wamphyri, and that the night is our true time.

The Baptism in Dragon's Blood
Awakening of the Wamphyri

Assembly of the Moroii

I have come of my own free will, I have come to join the B.O.T.D.. Sentinels of the Abyss hear my words, open the gates! Gods of UR! Undead Wamphyri, I have entered the chamber of Tiamat! I come of my own free will, and desire to rise as one of yours! Come, and observe my baptism.

Face south (raise the sword or staff):
Ancient Wamphyri - come to me at this place of worship in your honor, I seek your presence!

Face East:
Arise, Wamphyri Dragon Spawn, I desire Tiamat's blood, hear my words!

Turn to the north:
Your wisdom I seek! Enter this place willingly, for I come willingly to the Abyss!

Turn to the west:
I have come to die mortal death, and to ascend to immortality - my desire and my will are strong. I call you now!

The offering:
(If a mirror is used, which is recommended, turn to it and focus on the sacrifice).

I stand here, in the presence of the immortal Vampyres - those who have risen. I offer you life force that I have drained from humans, come and drink Moroii.

(Breathe out deeply four times, when you have done this you should feel the presence and the possibility of an opposite flow of astral energy).

I will be reliable on my path, for my immortality awaits - let the resurrection begin! I hereby conclude this ritual. Hail Tiamat!

(Clap hands twice and leave the room).

Rites of the Akhkharu

Preparations:

During this ritual, four black candles must burn on the altar, the four candles represent the four dark spheres which are: Mercury (sphere of transformation), Jupiter (sphere of wisdom), Moon (sphere of hidden knowledge) and Saturn (sphere of chaos).

Recommended to meditate with appropriate music, suggested duration: 15 or 20 minutes. Gather as much life force as needed two days and two nights before this ritual, and have no contact with anyone the day before the night of the ritual. Meditate alone and decide the will and the desired result of the ritual. After this ritual, sit out into the night, in a field or wooded area, focusing on your strengths, your weaknesses and your inherent worth. Let your heart beat equal to your surroundings.

Rituals of the Akhkharu

abyss, of the void.... You shall come to me, for I am Wamphyri!

I sacrifice life force, astrally drained from humans, open the gates to Immortality!

My substance shall be transformed into the black demonic combination of a wolf, a bat and a dragon! In this form I command my sleeping human prey to remember me as the shadows that ravaged their fragile souls.

So it shall be done. I have sacrificed and opened the jaws of Tiamat. I died and was reborn.... my form was strengthened in all ways, improved and I became a wrathful Wamphyr, take heed, I am Wamphyri!

From this night on, my shadow side has grown, and my astral claws shall touch and hollow out the sleeping victims!
My wolf-shaped jaws shall draw out the life-force/blood from the victims.

My astral leathery wings shall fly over and through nocturnal empty graveyards

and ride the north winds further into the night....

The predators of the night shall cry my name, shall wait for my call.... So it is and so be it!

The gates are closed! Hail Wamphyri! Hail Tiamat!

This curse is for already taken Wamphyri who seek to understand, control and master the darkest forces of magic.

The Dark Rituals of Satan

Part 1
Materialization towards the Throne of the Beast

Preparations:

This ritual is intended for the sorcerer to increase his opportunities to put his powers to use through the non-material world in this material world. You will notice that this ritual is not intended to "praise" Satan, but to open the subconscious mind to the Acausal, therefore, before practicing this ritual, you should understand that Satan should be understood by the novice as a part of the "inner Beast", and as a part of Nature; a natural balance should be established between the part that is Satan and the part that is The Self.

Satan, with respect to this ritual, is to be regarded as a powerful archetype, not as a personification. Satan is considered not only as an

archetype, but also as a great power of nature and the cosmos. However, before someone worships acausal forces, he should be aware of his own divinity.

Satan's Dark Rituals

On this night, when Satan's candle burns, I shall open the gates of the dark sphere and enter it, shall strengthen myself and return....

I call upon the four princes of hell....

From the south...

Satan, may the eye of the pentagram arise within.... Lord of wolves, of destruction, of shadow, of war, of lust, of victory, hear my words that strike like lightning across a dark sky....

Come here and give me myself to my desires and lusts!

From the East...

Lucifer, lord and fallen angel of diabolic wisdom, of the kingdoms in heaven, grant me power over the four winds, so that I may send my curses to

all the destinations and treasures of this world....
Hear me now!

From the North...

Belial, Lord of the Earth, Regent over the mountains, over the silent shadows, over the forests of secrets, put your might into my favor
Hear me now...

From the West...

Leviathan, serpent of the depths, awake at the sound of my voice that makes the waters tremble in honor of the powers of darkness.... Ancient serpent, kingdom of Abyssos....

Hear me now!

I call upon the powers of darkness beyond and within!

Fenriz... Black Wolf of the North, let shatter the chains as I shall shatter the chains of mortality and ascend to the Throne of the Beast, to the Throne

of Ordog.... The demonic power of the wolf shall be mine. We are predators!

Wotan... my German blood is boiling! We are one, Your eye spreads its fire from within me!

Awaken!!!

Tiamat, beyond all stars beyond all matter You are, in warm human blood, Tiamat, Black Dragon Goddess, Your essence flows in my veins, in my veins flows the blood of Your race, the serpent race.... Arra Draconis... I seek the hidden path of immortality, under the banner of the wolf, the bat and the dragon.... Awaken!

Ordog... Wanderer in the woods under the cloak of night. Your essence is part of mine.... The shadow side... Awaken! One of many names of Satan... hear me now!

In nomine dei nostri Satanas Luciferi excelsi. Introbo adalarte dei nostri, Ad dei nostri Satanas Luciferi...

In Satan's name, his who is everything, God of many names.

I, the sorcerer, seek Your power, Your essence shall be one with me!

I command the powers of darkness to give me thy infernal powers!

I am the sorcerer, who holds Satan's banner high above, I am (...)!

Open wide the gates of hell and come through the dark spheres, greet me like your brother. Like one who wears the crown and essence of the Dragon. Hail to the Dragon race!

I call to master the powers of darkness and to give myself the consent of those of whom I speak. I shall be victorious in all that I command this night, my victory is the victory of darkness! We are as one! I call the powers within and behind....

Awake and appear!

I call (you) now from the dark spheres, from the infernal kingdoms in All, in

Nature, in Wind, in Water, in Fire and in Cosmos.... hear the names!
Pan, god of nature, spirit of human instincts and desire.

Dracula, Dragon of Darkness, keeper of the European heritage.

Hecate, goddess of love and lust.
Fenriz, black wolf of the north, holder of the man's shadow side.

I am the Wamphyri, gather powers of the night, truly we are of Venom's race, and my voice is like a trumpet, become one with me.

Let my will be done... Hail Satan!
Before the altar, before the center of all time, causal and acausal time and also of the cosmos, I raise the cup of homage to what I am, what I can be and what race I belong to, the Dragon race, a son of the Black Dragon!

I drink in memory of the gods of the night and I drink to further seal my unbreakable bond - the blood is the life!

Hail Wamphyri!
(At this time, the mage should focus his attention on his desire to further strengthen the self. What you are talking about here should refer to events that help the sinister dialectic, those who follow the shadow path seriously should have a very easy time finding out what it is. Before you try to draw material successes, or whatever your plans are, you should focus on your inner self. Strengthen yourself from within as much as you can. Understanding and controlling the inner Beast means mastering everything around you later. Understand what you are, improve and perfect the Self).

(Raise the sword/dagger/staff towards the altar, point counterclockwise in each direction until you arrive back at the starting point, facing the altar).

I await the Powers of Darkness,
I send away Satan's forces to move forward and make the visions I speak of a reality. I worship these forces because Your power and Your wisdom have been given to me.

So it is done!
Hail Satan!

The Union of Satan and Baphomet

by Baron Drakkheim Abaddon

To evolve as a magician or as a witch, especially for those who wish to merge their individual energies together in a union, in a union of flesh and spirit, this may be an ideal pathwork.

In Eliphas Levi's texts, Baphomet is distorted into the physical form of a hermaphrodite with a greater masculine component. Through the centuries, Baphomet has been portrayed as the "Mistress of Blood" who washes herself in the blood of enemies.

She can be seen as the Mistress of the Earth, and connections can also be drawn to the seven-branched Tree of Wyrd (Jupiter). In esoteric tradition, many rituals were practiced in autumn and it is said that she was connected with the rising of Arcturus. Arcturus himself is the masculine, sinister

aspect of Mercury. He can be identified as Satan/Lucifer.

In such a ritual, the woman is to assume the role of Baphomet and the partner, the man, the role of Satan.

The desired effect is to create a diabolic union with which regeneration begins.

This ritual should be performed in the darkest hours, preferably between 3 o'clock (the hour of the wolf) and dawn.

The witch should dress seductively, in red or black. She should wear either a pentagram or a Baphomet medallion around her neck.

The candles should be black, only one should be red, representing blood/life force. The magician shall be dressed in black. On the altar let there be a crystal tetrahedron and other important personal symbols.

The Invocation

(Mage)
I summon the gates behind this dimension, for the essence and energy of Satan shall rise within myself!

I am Satan!

I seek union with Baphomet, the Mistress of Blood.

(Witch)
I bring life and creation!
I bathe in the blood of my enemies!
I am She who tears open the maw of the earth with joy!

I am Baphomet!

The energy and the diabolic lust shall flow into me from the Earth upwards and rise into the night sky, the Acausal!

(The magician raises a sword or a staff in the direction of the south).

(Magician)

From the south, Satan, who is myself, I gather the fires, the kingdoms of burning coals. Awaken!

From the east, Lucifer, bearer of light, kingdom of the air, ride the winds of storms to us. Lucifer rises!
From the north, Belial, lord of the earth, master of sinister forces, awake and hear our calling!

From the west, Leviathan, lord of the depths, rise from the realms of water, from the deepest ocean, from the darkest water, serpent awake!

(Witch)
I call for a union of the flesh, of lust and desire with my sinister spouse, our energies shall cause storms of our commands, it shall be accomplished!

The couple now takes off their robes, the magician shall now arouse the witch. When she is aroused, the sexual union begins.

Before the orgasm is attained, the couple should imagine a dark, bright

red pentagram, concentrate on it, imagine what they desire being accomplished and send all energies to it. Before the union is complete, the witch should imagine, how her desire is accomplished, then she should moan softly, "It is accomplished!"

(Mage)
The union is complete, and our desire shall be fulfilled.

(Witch)
I am the Mistress of Blood. I am the daughter of the Dragon and Lilith. I seek blood!

(The mage and the witch cut each other slightly, so that blood flows)

(Both)
The blood is the life and it is ours, the union of our diabolic existence shall be sealed by drinking our blood!
(Now both partners drink the blood of the other and see how what they desired comes true)

(Both)
It is accomplished!

Lycanthropy/Vampirism - Sinister Evolution

by Baron Drakkheim Abaddon

Since the dawn of mankind, there have been numerous stories of humans transforming into animals. Be it the Berserkers among the Vikings or the transformation into leopards.

Since those times it is also said that witches and magicians can change into different shapes with Satan's blessing. Some say that one can gain the power of lycanthropy by putting on a girdle made of wolf skin. In the 15th century, a murderer named Peter Stubb was caught, tried and executed in Germany for allegedly being a

Werewolf and making a pact with Satan. In his will he wrote that Satan himself had given him the belt to be able to turn into a werewolf. He told the judges that he went into the forest at night, to a secret place where the belt had been kept hidden.

He said that when he put the belt on, he turned into a Werewolf and ate women and children.

In the Baltic region, it was believed that if you drank from the footprint of a wolf, you could turn into a Werewolf. Many others who claimed to be witches were said to have rubbed their skin with henbane, nightshade, or kin fat. The word "Werewolf" comes from the Anglo-Saxon.

"Were" originally meant "man," so together it meant "man-wolf." The wolf is the symbol of strength, wolves always fit into the ever-fascist balance of nature. Wolves were known to move up to 100 km a day. Usually wolves hunt in packs and are excellent trackers.

For the genuine black mage, like the Wamphyr, Werewolves are archetypes of a higher predatory impulse.

A black mage who is mentally and psycheally capable of rising to a higher sphere as a Wamphyr and Werewolf is the true master of the earth!

The Satanist tries now to understand his shadow side from this cycle of evolution. By doing so, he would further understand his own powers, lusts and weaknesses and begin to break away from the christian lie. A necessity for positive evolution! It is time to destroy the myth of christianity, because this pestilence has been polluting the human mind for too long. Beasts, awaken from the sacrifices!

From the point from which the Satanist begins to walk the path to the Left Hand, he must try to evolve to a better self.

This does not mean: let someone do it for you, but do it yourself. You must develop pride and higher spiritual strength. Understand that you are responsible for yourself, and that there is no God or Devil to blame.

Satan represents carnal desires and lusts, so live life to the fullest! Satan also represents evolution and the will to become divine.

Understand that you can become a god, and this god you must worship!

The next step for the Satanist is then to become a black magician. This path is long and difficult. Just because you can become a Satanist does not mean that you can become a black magician. A true black magician can alter or transform the causal (by opening the psyche, a key to the Acausal), towards the Acausal, which is mostly stimulated by deep unconscious meditation, and by congregating, controlling, understanding and becoming one with the Dark Gods.

When you have eliminated the worship of anything anthropomorphic from your mind, your soul brings the keys to a higher level of wisdom, strength and subsequent power.

May the Lycanthropic process begin!

By meditation or by certain lycanthropic rituals you can awaken the Beast in man. Everything must be contained, nature itself is fascistic,

and so are we! In predatory instinct there is no equality. This absurd thought comes from Jewish Christianity.

In our reality, werewolves are not child-eating creatures who sold their souls to Satan, but, in truth, beings who became one with Satan's power through understanding.

Lycanthropic transformation is acquired first and foremost mentally.

When this stage is reached, you will feel more at one with the night, with nature, with the shadow side.

Your physical strength and sexual desire will increase. Your ferocity will grow, as will values such as loyalty and companionship. Later you will learn to creep quietly in the forest, and your nocturnal senses will have become better developed.

The path of Wamphyrism is one step further in B.O.T.D. If you have studied and applied the black arts, and if you have experience in the black arts

(Wamphyrism, Satanism), you can become a Wamphyri.

First you must learn to see people as victims. Never trust them, and only loved ones - if there are any - are worthy of feelings. This path is only for the chosen ones. You must give up all contacts with humanity.

They are parasites, they are victims, they are pawns in our game.

Some Wamphyri will feel beauty and a sense of " being at home" by themselves when dealing with the symbols of death and the Acausal.

Wamphyrism ultimately leads to spiritual immortality, to resurrection. Just as Fenrir is the original symbol of Lycanthropy and of the "Sinistral Order of Fenrir," the Vampire Dragon Tiamat is the symbol of Vampires.

Blood/life force is the potion that will transform you into a Wamphyri. When you are spiritually advanced enough to understand Wamphyrism, you must further grasp and

master the art of Wamphyrism, i.e. astral projections, astral transformation of the body (e.g. wolf, bat, shadow, etc.) as well as predatory instincts, such as draining the life force, self-control and discipline. After years of study, after years of devotion and practice, you will become a master of the black arts: the ultimate earthly goal is to become a magus. By understanding and growing into the Wamphyrian/Lycanthropic/Magic, you will become a true master of the material world. A true Werewolf, a Vampyr and a true Predator.

Many experiences, visions etc. are hard to put into words. You shall find out, as I found out, that many things can only be understood by living through them yourself.

Awaken the inner werewolf!
May the blood flow!
Hail to the wolf age!
Arise, Wamphyri!

Spells of Destruction

The Rites of Wrath

by Baron Drakkheim Abaddon

This ritual is primarily a one-person rite, if more than one person is participating, the text should be carefully rewritten to fit the ritual.

Attire: black robes, cowls, an inverted pentagram representing black magic and the powers of the night.

Keep in mind that in B.O.T.D. this symbol means that people are victims to the power of magic.
Time: Sunrise at new moon

Preparations: Altar with black cloth, Wamphyri pentagram and the Goat of Mendes. On the altar itself four or more black candles, one red representing blood and life force, a silver chalice. In the center of the altar should be a pentagram - and if possible a human or a large animal skull. A crystal tetrahedron should be on the altar to hold or focus the flow

of energy with it, to direct immaterial energies into the victim: a photograph or possession of the victim. The last one is very significant, a sword or a dagger.

Lucifer arise!

Hell Unleashed

(Turning to the altar) Agios O Azagthot

In this hellish night, igniting the Black Flame of Satan, I call the four Princes of Darkness: Lords of Death and Destruction, hear me!

From the south, I call out to the Lord of Ruin, Satan, come! Holder of the kingdoms of retribution and fire, appear! Hear the words of my demonic existence, I utter the keys of the infernal gates! Arise and enter, for I am one with you!

From the East I call the Lord of the Diabolical Wisdom, Lucifer, come! Lord of the kingdom of the air and bringer of the light of glory, arise! Hear my mighty words and come!

From the north I call the Lord of the Black Earth, the cruel and barbaric Master of the jagged mountains.

Belial, appear! Bring me the element of the earth and fulfill my request against the chosen victim! Belial rise!

From the west I call the Lord of the Water Kingdoms, the King of Abyssos. Leviathan, come! Let the oceans thunder with vengeance. Leviathan rise!

I am one with the dark forces of the Black Earth and the cosmos! Leviathan, awaken from the depths! A mortal has risen against me. May the sacrifice be destroyed to guarantee our victory.

Tiamat, the cult of the Wamphyri summons you!

In nomine dei nostri Satanas luciferi exclesi, Introbo ad altare, dei nostri, a dei nostri Satanas Luciferi.
In Satan's name I call shadow and spirit, dragon and demon to rise.

My luciferian presence has unleashed the Inner Wolf.

I hunger for the death of my chosen victim. To the sphere of Mars!!!

((Name of the victim)) is now your sacrifice. He/She has risen against us! I now concentrate my diabolical energies in this part of his/her/its possession. My astral fangs dig deep into the opfer's throat and I will drink copiously.

(Recited once, imagine it, believe it. Hold the object of possession, and begin to take deep concentrated breaths that draw in the life force. See the slow death as you continue to siphon).

I have now initiated my revenge, my retribution. The renewal of the self now commences.

I raise the cup of blood in honor to the Dragon, the Wolf, and to my predatory instincts.

To the honor of Pazuzu and to the essence of Akhkharu. It is done!

(It may be well to perform this ritual three times with equal concentration).

The Werewolf Ritual

By Baron Von Abbadon,
1995

The Invocation of the Wolf Spirit

I stand in the dark of night, before the center of time. The past, the present, the future.

I now light two black flames:

One represents the powers of the night and those of the four elements: earth, wind, fire and water - in the darkest shadow of each: Satan, Belial, Leviathan and Lucifer. I am one with the darkest power of nature.

One stands for the power of my existence, for my physical body, which is bound to the material, my carnal lusts, still controlled, shall be unleashed: and for my spirit, which vibrates in harmony with my astral body and thus reaches into the non-material. With the eye of my spirit I see what I am and what I can become.

I light now the black candle of Satan and I call the wolf of the north. Fenrir, awake!

I call upon the demonic forces that wait in the earth, residing in the Acausal - waiting to penetrate the material: Demogorgon, Pan, Fenrir, Lilith, Drakul, Loki - appear!

We are gathered as One and the bond between the causal and the Acausal shall be tightened at my will! The gates are opened!

I have called out to the powers of the night. I am ((...)) a Wolf of Satan. I am one with nature and its creative and destructive forces, with the shining beauty of the night. I stand as an Elite Beast. I stand strong!

With my blood I have drawn the Wolf's Hook on my left chest, may this rune bring my material and astral form into and onto the balance of nature! On my right chest I have drawn the Wolf's Hook Ragnarok rune: This rune represents the cycle of destruction and creation. The runes are branded inside.

The darkest rune of power! Fenris spirit shall be born from within.

My astral body becomes a wolf. My heart beats in time with my environment. Satan's Eye appears within. In my veins boils the blood of the Dragon. Forbidden knowledge I seek. Take heed, the transformation is complete! The moon howls with my spirit - my lupine form is reached. I can taste the blood, the fear of the victims.

I demand war, I will stalk with silent steps.

My gaze is in all shadows... I will rise... from the ashes.

I have risen to a new level...the evolution of my Serpent Race.

The wolf is unleashed... and the hunt begins.

I will see through the eyes of the wolf!

Nature and I are one, I have returned to the primary laws.

Hail to the Night!
Hail Fenrir!
Hail (...)!
Satan awake!
Wotan with us!
Thus, the ritual of the werewolf is complete.

The Predator and the victim hunt

by Baron Drakkheim Abbadon

It is written that in a few years we will already reap the Harvest, therefore every Wamphyr shall provide life force in abundance: we will break free from material limitations and some will enter the Acausal, the Non-Material. The Undead Gods will usurp the dominion of the Black Earth!

Every day that passes, the living Moroii Wamphyr shall prepare for the Final Harvest. Through astral projection, he shall hunt through the night with black claws, draining the purest life force. That of the sleeper.

Through such nocturnal undertakings, but also through simple handshaking, which takes a small part of the victim's life force, the Wamphyr accumulates a reservoir of life force.

Part of this life force is sacrificed in communion with Drakul, just as some energy is also returned

many times potentiated by the Undead Gods.

The Ego of the Wamphyr

During years of practice and study, the Wamphyr learns that discretion with the masses is very important. The Wamphyr ultimately sees people only as cattle for sacrifice and slaughter. People are toys and pawns to the Wamphyr. They will attain a mortal end - and many of them will simply not exist anymore.

However, never underestimate them. Avoid worldly/unimportant confrontations that show the real you.

Remember that the ultimate goal is to join the Resurrected Ones.

If someone attacks you, destroy them with all your strength, be what you are, act like it - like a Werewolf and Predator! For we are Demons Made Flesh! The Wolf Age is here! The Satanic Age has dawned! Let it be a Bloodbath!

The Black Dragon Arises

Vampyrism

Through the archetypical symbols which have existed since the Sumerian period, such as one of the first known cult of Vampyrism, HEKAL TIAMAT, to Vampyrism in Transylvania as in the reality of the original Order of the Dragon, in which European hero Vlad Draculae was a member of, to current Vampyric covens through the centuries, to current period covens have always, intentionally, blinded the masses.

It must first be known that vampyrism is NOT at all a simple, or relatively quick path for everyone.

Vampyres are more or less born dark, those who have been in touch with their darkside or shadowside since their childhood.

Vampyres do not view themselves as humans do, because we are NOT human in all tearms. Humans are sheep to our kind, we do not hold any place for compassion, tolerance or love for

sheep. They are our prey, and lifeforce. Vampyres look upon their personal being as GODS, the humanistic concepts of mortals do not guide us in anyway either. To become vampyre, the individual must tear away all strains and weaknesses they have picked up since their first birth.

Do take note, this is not any easy thing to do, however, observe, this is only the beginning. The individual proceeding down this path must push his/her physical body to the limits, as well as testing mental and developing psychic strength. Psychic strength is highly important for developing the Vampyric will. Through a period of several years, the individual will slowly build the character needed for the individual to immolate his/her essence with the crimson of the dragon.

For most involved with BOTD, a parallel with traditional Satanism should be observed. If traditional Satanism defines pushing limits, going beyond what is morally "right" and "wrong", "good" and "evil", as well as implementing Aeonic, acasual and casual transference (ie. the Nine Angles), building a superior, elite occult

fascist character then Vampyrism can be seen as an extension of the path of traditional Satanism.

That which does not progress, perishes! This is very true and realistic. Any initiate interested in the BOTD will be introduced into a very harsh will training and Alchemical change process. Most of this is done in Hermetic rituals, seperated from all comrades, friends, and lovers. This the ONLY way which will build material for a GOD or GODDESS.

While actual human blood (not animal) holds psychic energies obtained in advanced vampyric rituals, BLOOD ESSENCE (Astral lifeforce) holds the highest significance for such, incorporated through many different levels, is the path or partial key for immortality. The initiate vampyre will learn to set his/her mind from the individual human and realize ALL progressive change and evolution is caused by him/her ALONE! The Vampyre IS god itself. The Vampyre realizes that ALL other humans who are not amoung his/her rank or kin are prey and pawns.

Lifeforce is drained from humans through astral contact, as well as clairvoyance amoung others. The powers of astral hunting through dream and drinking the purest lifeforce is ONLY best described through the experience itself. The symbol of the vampyre who drinks blood from sleeping humans (Opfers) is not far removed from the astral vampyre predator - Known as Varcolaci - who drains lifeforce from the sleeping humans astral body.

Through the nightside, the vampyre through will and practice, can shiftshape, to hunt amoung the shadows. The forms can be several, Varcolaci (a form of demonic bat-wolf and dragon resemblance), to wolf and bat. This is all based on general and simple scientific law.

Vampyric communion is an essential part of vampyric survival and renewal. Secrets of Vampyric communion are first described in "ART OF WAMPHYRI" and further in "CTHULU".

BOTD is currently guided by Clan Nachttoter, of Germanic blood, under guidance of acasual Vampyres, our goals are quite the numerous. Time will tell

the significance. Our sigils to invoke the essence are two : The Wamphyri Pentagram, through the sphere, lifeforce is transfered, godhead is achieved. Nefarious shadows haunt any human uninitiated. The other symbol is the Nachttoter seal, the symbol of the Nachttoter Vampyre Family, descended from Germanic and Celtic blood. Members of Clan Nachttoter currently offer guidance concerning BLACK ORDER OF THE DRAGON trials and paths.

Circle of the Red Dragon

- Transcend the flesh in the form of Varcolaci -

This is the rite of dying and being reborn. The sigil is of our coven, our family - The Red Dragon, Tiamat. Of Nachttoter....

Those of royal vampyric blood.

The altar should be located on the west wall if at all possible. Upon the

altar should rest a human skull or well crafted model. The human skull represents the death of the human condition and rebirth. If the skull is authentic then some essence of the individual may be connected already - thus representing the risen essence - Beyond Godhead towards the black cloak of Azrael. A crystal should be implemented as well as soil from a graveyard enclosed within a cloth pouch. A virgin dagger.

Above the altar should be a large plate of the Wamphyri-Varcolaci Pentagram, as well as the seal of Nachttoter - The Red Dragon who is TIAMAT - Vampyre Mother of Chaos and Evolution, 77. Incense should be Frankincense or Jasmine. Candles should be red and black. Enter to die and be reborn.

Rite of the Red Dragon

With the Sword of the chamber, shape the inverted pentagram, focus upon the fire which be arise from each point as a result chant: ALL THAT IS BORN OF FIRE LIVES IN FIRE.

Through shaping the pentagram the sphere of Satan is opened - the true self is revealed. The Triangle of LAYLAH is to be drawn upon the wind, to inaugurate the symbol of night and death - equaling 77, the tract of rising-GODHEAD. An inverted Triangle should be inverted, focus upon the blood red eye which will glow as much as your desire allows.

Point the Sword to the Sigil of Nachttoter and then to the Wamphyri-Varcolaci Pentagram - Call the Undead gods upon the astral plane - FROM THE FOUR WINDS, WEST, NORTH, EAST AND SOUTH - UNDEAD GODS OF THE NIGHT, ARISE FROM THY CRYPT IN THE REALMS OF THE DEAD, SHADOWDEMONS, THOSE WHO VEINS HOLD THE BLOOD OF TIAMAT COME FORTH!

Hold the Virgin Dagger and the pouch of grave soil, focus upon the

sigils of the Vampyre and repeat: I have lived as Moroii, transfering the lifeforce into the jaws of the undead gods, I now seek to ascend into the condition of Vampyre-Varcolaci, to die a mortal death and be reborn to the blood of the dragon! I spill my blood into the grave soil and transfer a part of my essence and being into this - My life-immortal-My WILL STRONG!!! TO BE REBORN INTO THE NIGHT! - Cut yourself deeply enough to stream blood into the soil-while doing so chant and visualize TIAMAT - A burning sphere with a blood red dragon - UNDEAD GODS - Witness the deication of the burning spheres, within I have absorbed the WILL of Nachttoter, those shadows demons of TIAMAT - I have died and been reborn into the WILL of the Red Dragon.

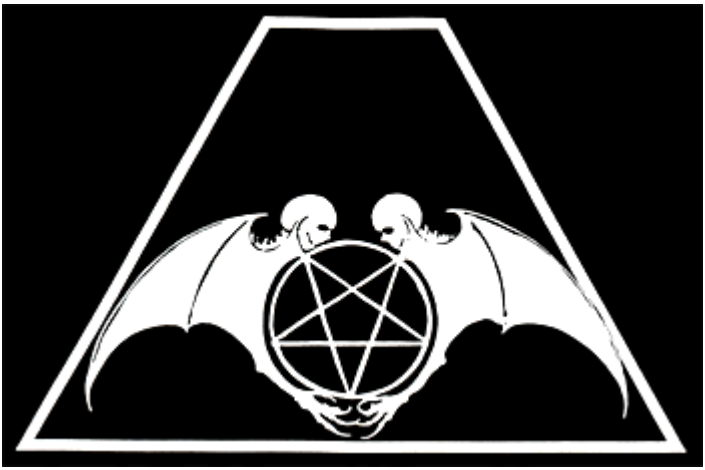
-Hold the crystal and focus upon the Chaos that your WILL has evoked and invoked upon the casual realm - Focus and inject your new being, VARCOLACI.

-Begin a sacrifice of Life force into the Wamphyri-Varcolaci Pentagram, once your astral eyes are opened you can see strains of lifeforce entering the pentagram. After the sacrifice, you may feel a stronger Life Force known as

the Blood of Tiamat given back to your being - The Undead Gods give such a sacrifice to you.

I AM VARCOLACI - MY WILL IS LAW AND LOVE IS TRIUMPH! THE GATES ARE ALLIGNED AND I HAVE RISEN!
SO IT IS DONE!

Night Shadows and Varcolaci



Astral travel and the rising of the Varcolaci is an important step within the awakening of the Vampyric condition. In recent years there have been many books and articles by the so-called "Magick/occult society" who claim to have the secrets and system of astral travel. they call astral vampyrism "wrong" and unnatural. Is it unnatural for the wolf to devour its prey? Is it unnatural for man to kill cattle and other animals for food? An absurd notion for an individual to deny her/his true nature.

The Vampyre looks upon astral travel as a time of meeting with other Varcolaci who have taken to ascending the human condition. Varcolaci will roam the night and brain lifefore from sleeping (i.e.. unaware) humans.

It is, during these times that the Vampyre may shape shift into any form according to Will. The Varcolaci form is always usually different from vampyre to vampyre. Some often resemble the demonic shadows of the Varcolaci - Wamphyri pentagram, while some are more wolf-like. The form is according to will and can change when desired. Some will travel and feed from prey in desired beautiful forms, as white and flowing beings or as ghastly wraiths.

Astral projection is a several step system of meditation and control. To properly meditate and enter the mindset of astral projections, one must prepare the home or place of this practice in a quiet manner. Take the phone off the hook, turn the TV off, and make sure distractions will be to a minimum.

You will need to find a comfortable place to lay - a bed or

couch. Incense should be burnt, either Frankincense of Jasmine will do. A red and black candle may be burnt, of course totally optional and rather unimportant.

Once you lay yourself down to begin, you will want and need to clear All worries and thoughts in general from your mind. Be relaxed and slow your breathing and heart rate.

From your feet up, tell yourself as you relax each part of your body.

Do this until your entire body is relaxed. Once this is done, concentrate on causing your astral to extend and take the form of your desire - it is All according to your will. Once finished, focus your mind's eye toward extending and rising from your body. You will feel a strike of excitement but you will need to control this emotion and remain calm, nay very calm. The result if not followed will be failure.

Once you rise as Varcolaci observe your chamber and surroundings, look upon your sleeping body and absorb the feeling of pride of watching the

sleeping human form in which you walk the earth in.

It is now time to rise and fly the night sky.

The Black Wraiths Ascend

Now that you have risen, you may pass through doors and windows. Float beyond your chamber through a door or window into the night. As you float through you will feel the power that is within the self and only begin to realize your possibilities of being Vampyr.

Once you enter the night, take some time to observe the surroundings, remember your astral eyes are now open and only now can you truly see. things may be a bit different now and you might see things you normally do not ever notice.

A word of caution however, once you have risen as Varcolaci it should be aware that you have practiced a path of inner strength and will to power. The reason is once you enter the state of dream and rise as varcolaci then are you open to the spirits and outer beings and energies within the nightside as well. You are only as safe as you will it. If you travel and float with fear, the predators, others as you may take scent of it... Wolves Smell

Fear... a lovely scent for hunting the spirit.

Fly with joy into the night sky and travel where ever you wish to go. You will want to feed upon a sleeping human, for the life force in this state is so pure. Enter their home, float to their sleeping chambers ad watch them with your astral eyes... notice the life force, the astral body which lays with the sleeping opfer.

Float beside them and smell the life force flow through their veins.

It is now time to feast and taste the blood which is the life. With your will, send forth a vampyric tendril and make contact with the life force.

Once you do so, begin to draw it in deeply, enjoy each slow drain until you are satisfied.

Once you finish draining the opfer, detach yourself and once again enter the night. you will feel much stronger, more invigorated than before. Fly as the bat within the night and enjoy all that is being Vampyr. You are predator and it is your natural duty to

feed from humans.

For those advanced into the black arts of wamphyri, there are certain keys to entering other dimensions... however this is only for the inner circle of Coven Nachttoter and is a mystery of the coven. When this is obtained, many strange things will be seen and be sure it is mystery for a good reason. One must be prepared when entering a predatory state... or else he/she becomes prey.

Once you have haunted the night and you are ready to return to your human form let your instincts guide you back to your dwelling... you metaphoric tomb/grave. once you have entered your body then open thy eyes! Behold, you are as god itself. Now open the gates to further realms of Darkness.

The Wake of the Red Death

A Ritual of Destruction

"The Masque of the Red Death" is a very powerful tale by Edgar Allen Poe, the late poet and writer who raised the level of literature during his time which has changed the field of writing and those interested in the macabre for all time. Poe used a great deal of symbolism in his works, a manifestation of death incarnated into the archetypical Red Death, the tall and gaunt figure of blood reds cloaked in the shrouds of the dead. The Red Death is implemented in this destruction rite as the plague bearer, an extension of Azrael - the Angel of Death as a messenger of Will.

This ritual is to be done during the night, past midnight for then the powers of the astral waves are yours to manipulte and man is vunerable at night, more of a chance o success if they are not of strong mind and spirit. If they are as an equal, then there are several secrets in the destruction not listed in these pages.

This is either a hermetic rite or could be ceremonial as well.

The Sorceror is to be clothed in a blood red cloak and/or robe. The Sorceror should also be clothed in a white grave shroud which would be placed under the robe or cloak. The face should be streaked in blood red paint or blood, same with any bare skin shown. A personal item of the intended opfer must be present, be it either a cloth, photograph, paper, etc. A crystal should also be present as well as bones, dagger, above the altar the Wamphyri - Varcolaci Pentagram and the Sigil of Nachttoter - The Red Dragon.

This night you shall become vengence and anger - The law of Abraxas is implemented - The spirit of Kali is invoked. Love love and love causing destruction to those who have crossed you.

The Red Death Awakes

Shrouded in the habiliments of the grave, take in your hands the grave soil in which you have blessed as your own, in the other the crystal which you store within your acausal energy.

The Moon Drips of Blood: The Wolf (Varcolaci)

(A Raven and Serpent Masquerade excerpt by Peter Nachtgeist and MichaelNachttoter)

The wolf represents the moon and the strength which flows from its light. The feelings and emotions awakened in the heart of the predator by the glowing and enveloping fullmoon, are in nature similar to the dark, mysterious moods that the sound of howling wolves inspires.

We, Vampyres, predators of humans - visualize ourselves as the darkness of nature, nature unveiled. Strong, pure and beautiful. - When the night cloaks my thoughts, and by darkness I'm embraced, when the mist is colored red, and the moon drips of blood, when the chill bites my skin, and I ride the winds of Death, when the shadows haunt the night I lust for my nightly sip.. (Moonthirst).

Nocturnals do not fear death, as death only means returning to the infinite darkness, the Dragon's Womb -

as well as for the risen ones - Varcolaci - Vampyres who have achieved Immortality. Vampyrieth 77.

The scorpion symbolizes the starts and the drape of cold and dark infinity in which they lay in wait.

The scorpion is strength and honor - love and life - It is also the harvester of Death.

The Raven represents the darkness that cloaks out spirits.

The Raven seems to paint pictures of plague, death and misery.

The Raven to us is our nature and being.

We are of the night.

From the Flesh to Spirit

From the lands of Transylvania and what is now Romania and Hungary comes the Astral vampire known as Varcolaci. The Varcolaci is said to during the night hours, rise from their physical form and under the cover of shadows, ascend towards the nocturnal sky and drink blood from the moon.

Varcolaci is known to appear as a wolf with many mouths, a small dragon or a blackened shape of a demonic winged ghost, filled with an aura of death and lust. In the folklore of Transylvania Varcolaci can travel in several ways: When a woman spins thread alone in the darkness, she may create an astral thread in which the Varcolaci may rise into the sky to devour the moon. Often, the thread would be spun from the accumulated dust and dirt towards the sun and moon, the woman would be covered in blood and continue to spin. She would then have completed the bridge for Varcolaci, therein to wander the dark portals of the cosmos to attack the heavenly bodies.

The reality of Varcolaci is so

very true. A Vampire is also in fact Varcolaci, once the discipline of Astral Traveling is Achieved, then Varcolaci is able to develop and rise as a demon of great power. This is the path of immortality, of predator and prey.

While our kind does not exercise just the rising of Varcolaci as it's primary discipline of vampyrism, the condition and exercise of Astral hunting is very important towards the developing of the Vampyric Godhead, in which under the control of 77 all is possible within Will.

Varcolaci is usually soil based, during the waking hours the Vampyr will walk the earth. When the time for physical rest comes, the Vampyr will then leave his physical body. During this the vampyr is able to shape shift at will.

The Varcolaci will rise especially when the moon turns a blood red or copper color. The dark spirits will then drink astral blood from either the moon, stars, or the sleeping opfer. Remember, the dream is reality and all is formed within the dream.

It is to be known the astral wars are not yet over, that there is to be two rivers of human blood and astral blood poured from the cosmos, that our harvest will come and we shall take heed of the powers in which we sustain as being the Vampyric Godhead.

Folklore and Reality of the Germanic Vampire Races

In this section we will investigate the folklore and reality of the German Vampire races. Each differs in some way or another depending on the location. Common in folklore is that vampires eat from their own corpse before they rise from their coffins to prey upon human opfers. They would often lure opfers to their graves and by fog and funeral dust they rise to drink the blood which is the life. German vampires are often viewed as spreading plagues, like a cold wave their will calls upon rats and the army of the night to do their bidding. Below is the truth and lie of the vampire.

ALP

A German Vampire like spirit associated with the Incubus and the Succubus, tormenting the nights and dreams of man and woman, driving them toward sexual ecstasy and then terror.

The physical manifestation can be quite dangerous, long connected with

the nightmare; the alp is aid to dwell as a demon within a tomb. Some forms include the werewolf or a demonic man-bat-wolf manifestation. (All of which is quite true and accurate as all is possible to those who have utilized magick and the dream.)

During some periods and times, the Alp, in the form of Varcolaci, may enter it's opfer to command the body.

The ghost would enter through the opfer's mouth in the form of smoke and a serpent.

The alp will often drink blood from the breast of a woman (or any other place in which major vessels are.). The incubus/succubus are in most cases astral vampires, probably in 90% of all encounters. Although it is said that some demonic spirits who are not vampires can haunt sleeping humans.

NACHZEHRER

It is this race in which one of ours is marked from, the Nachzehrer is long known in Germany and surrounding places in Germany. The Nachzehrer is said to be distinguishable in its

coffin by odd custom of holding the thumb of one hand and keeping its left eye open. The Vampyr is said to chew upon his own limbs within its tomb.

The coffin in which the Vampyr sleeps is said to be filled with blood and soil of it's grave and or/ homeland. The Nachzehrer can also eat flesh of the dead and is quite active with Necromancy, the art of the Vampyr.

NEUNTOTER

A blood line from Saxony, traditionally the great carrier of plagues, usually seen during grim and severe epidemics. The Neuntoter (Nine Killer) comes from the belief that it takes nine full days for the vampire to develop in its coffin.

NACHTTOTER

This German race of Vampires is currently active in the United States, primarily in Indiana and Houston, a coven which is the control base behind the Black Order of the Dragon.

Nachttoter translates "Night Killer - or Killer in the Night" being the power of this vampire as a predator

within the casual realm, Varcolaci obtained. Members of this race may be summoned in Varcolaci forms on some nights, beware through, what is obtained comes with a price.

From the Seed of Belial

- The Inauguration of the Devil -

Before one seeks to master the shadows of his/her astral one must reach a state of completion and strength within the flesh itself. One must never deny the pleasures of the

flesh but one must always be aware to practice self-control and inner strength. This is the law of our kind.

Vampyres are masters of the flesh, we indulge fully in that fact.

However, we understand that the flesh is not forever and that even though some of us are fully capable of floating from body to body, that eventually the flesh dies.

We are essentially to be as ghosts, vampyre spirits who have achieved immortality through the Blood of the Red Dragon. We do not fear death, as the spirit is immortal according to our will. However, we enjoy the pleasures of life. The devil is lord of the earth.

Vampyres do now bow to any anthropomorphic being, in fact we only view the archetypal "Satan" as a power... the power within the cosmos and earth, the power within us. Those who embrace this power and all that it is and utilize it in fact become the devil itself - Satan Ascend, Lucifer Rising. This is the law of Satan. Bow before no other gods but yourself.

Belial is viewed as a master of the earth. This is the key of understanding the mastery of the earth - Satan incarnate. The following rite is for those who seek the path of Vampyr, those who would stand strong in the face of a world for their own taking. This rite can be used either as a hermetic rite or as a ceremonial rite. The primary design was for a hermetic rite.

Awaken the archetype of Pan, balance and joy is the key to rising.

The Inauguration of the Devil

To take place within the chosen ritual chamber.

The Wamphyri - Varcolaci Pentagram to be above the altar as well as a Baphomet and the Sabbatic Goat aka the Goat of Mendes.

The candles should be black and red. Upon the altar should be an inverted pentagram with some human bones or if possible a human and/or animal skull, to represent the power and lust of the flesh.

Clad in black or crimson robes with dagger and chalice. A sword should be used as well.

This is the night you shall become as Satan.....

Invoking Belial

Face the Altar and point the sword first to the image of the Varcolaci/Wamphyri Pentagram, visualize what you are and what you shall become... lust upon these symbols for they are to be representations of your essence.

"In nomini dei nostri Satanas Luciferi excelsi, I call forth the dark lord of the earth... Belial, I am of your seed, a demon of the flesh to shape the world as I see fit. This is the law of the Strong. My will incarnate."

With the Sword, face the South, point the sword towards the baphomet pentagram:

"From the South, I invoke the essence of Satan...
upon the wings of darkness you shall come unto me!!!"

Face now the East:

"From the East I invoke the essence of Lucifer, the bearer of light and

insight... come unto me!"

Face now the North:

"From the North I invoke the essence of belial... lord of the earth, come forth unto me"

Face now the West:

"From the West, I invoke the essence of Leviathan... come forth serpent of the Depths.. come unto me!"

Take now the Dagger and recite:

"By the sigil of the Infernal Dragon, the Red Dragon of ALL I call unto the forces of Nature and align myself further with the natural powers of the earth! I will and do partake of the pleasures of the flesh and recognize myself as a god of the Earth. No one is before me as I am the Devil incarnate!

I call with the sigils before the spirits within... enter and grow within for I am Vampyr, of Dragon's blood. From the four pillars of Satan my law is sounded and the beast is unleashed. My flesh is iron and the werewolf is awakened! My voice and desires enter as

will to incarnate in FLESH! This is as PAN and the love of the Earth and Cosmos. LADLAH is witness and love unto me, all is a mirror of sight and vision. Heil Shaitan!"

Take the chalice and recite:

"Within is the elixir of Life and Love, of strength and hate, destruction and creation. Renewal and completion. I recognize there is no god before the self and that self-preservation is the highest law. This I say with my voice, which casts deep into the abyss and carries with it a law forever spoken! Heil Tiamat! I drink and am now reborn from the seed of Belial! So it is done! The gates are aligned!"

Meditate now upon the sigils and all that you have recited. Become as Satan. Stand proud and push the self towards the heaven of ecstasy.

Werewolf

Heil! Heil! Heil!
O, great Wolf Spirit Heil!
Mighty shadow within the circle enter
the space of time
Make unto me a werewolf,
strong and brave as my Will

The connection of Werewolves and Vampires are quite parallel, in fact in the reality of the Vampire, it is indeed possible for a Living Vampyr to be a Werewolf. Transformation can be in two possible ways, a mental transformation, Lycanthropy as well as astral shape shifting.

When alone in a forest or secluded area is a prime location for a lycanthropic ritual. A skin of the wolf may be worn, a mask or other articles representing the transformation from the human shape into a 7 - 8 foot demonic gray man-wolf, burning blood red eyes of yellow gleams from large, sharp and cruel teeth. Those who seek to master shadows and sorcery may become a lord of Werewolves, in command

of the shadow demons which may become as one with the WILL and the SELF.

When in a forest practice a Werewolf rite and feel the transformation, revel in the pleasure, in the hunger, in the burning glow which permeates the senses. When astral traveling, your human shape may shape shift to any desirable form, take pleasure in becoming the Demonic wolf. hunt your sleeping prey with stealth, feasting on astral blood as they sleep.

Below are some teachings of the Werewolf, ending with a rite of Lycanthropic power. Remember, no spell nor word can alter change which has not lit within the WILL. The misanthrope has risen and the age of the wolf is upon us! Feast!

Lord of the Woods

In the year 1502 there was a peasant named Pierre Burgot who was tending sheep while a large and fierce storm broke out. From seemingly out of nowhere rode three men dressed in black riding upon three black horses. One of the men called himself Moyset, tall and pale, sunken eyes with long black hair. Moyset told Pierre he would let his hands watch over his herd and give him great fortune if he would obey him, Pierre agreed. In the next meeting, Moyset stated his commands, to reject a so called "god", the false virgin, the baptism and confirmation. Burgot accepted the demands and swore loyalty by kissing the hand of the Moyset, which was as cold as the hand of the dead.

The years past and the black rider returned. Moyset demanded that he should grease himself in an ointment he gave him. Verdun, another villager did so as well. soon after as their hearts and will was as Sinister, they turned into werewolves.

These wolves of Magick attacked a

seven year old boy, tearing him to shreds, killing a woman and a four year old child and they only left an arm to be found intact. In time they were caught and killed by villagers.

One hundred years ago a fourteen year old boy named Jean Grenier was in a deep forest where they met a man upon a black horse who called himself Herren or Lord of the Forest. With his cold dead lips he kissed Grenier and with his long and sharp nails he cut a mark in their thighs. Herren gave Jean a wolfskin and an ointment. After donning the wolfskin and rubbing the ointment, Jean killed in his werewolf form over fifty opfers.

The Wolfcharmer

In France they are called by the humankind the "Meneurs de Loup" which were said to lead wolves by the use of a bonepipe, creating the orchestra of the night. The Wolfcharmer is a total misanthrope who in his heart hates the human race. The wolfcharmer is the leader of the wolfpack, and can by the use of the bones pipe, command the wolves to attack human prey.

The Wolfgirdle

The Wolfgirdle is commonly made from the skin of the wolf, mixed and sewn together with the skin of a dead witch or an executed murderer. Don the wolf girdle before the lycanthropic ritual.

The Rite of the Werewolf

Mental Lycanthropy and the summoning of Shadows

The altar can be either within a home or in the woods. Upon the altar should rest bones of the dead and two black candles and two red candles, above the Wamphyri - Varcolaci Pentagram (A Sigil of the Black Order of the Dragon).

With your mind draw one circle anti-clockwise that it might fit a man within.

"From the will of that which is Satan I call the Demonic powers of the Wolf - Shadows demons I call to thee! One spirit shall rise through this circle - One chosen of the Demonic hordes I evocate thee to bring forth the Gray Beast which makes all tremble, by my will and will to power I will become WEREWOLF! Phantoms of Darkness I now invocate thee - they likeness is to be within and through my Vampyric Will I implement the power of SATAN!

With your mind focus upon the transformation. Feel each muscle as it stretches, grows stronger, more

beastlike. Rough gray hair grows through the skin as the flesh itself turns ghost white and the face blackens. The bones stretch and begin to form a beast between a man and wolf. The face warps into a long snout which holds many razor sharp fangs.

The fingers stretch and fold into Talons, cruel to the flesh they Shred...

Feel now the pleasure of the Werewolf, go out into the night and taste the pleasures of the Will.

SO IT IS DONE

Rite of The Mistress of Blood

A calling of Baphomet, a Vampiric Rite

The following is from the archives of Coven Nachttoter, utilized in a basic form in 1997 era horrificus. It has been updated in following form here, it is useful in describing the context of the Sinister Tradition and the difference between it and other temples in the order in that time period.

Purpose:

The calling of the Dard Goddess of Devourment, Baphomet through the Gate of Darkat.

Participants:

Three individuals, Each represents an aspect of the Offspring of Baphomet, Power Vengeance and Lust.

Tools needed: Crystal, red candles, Altar piece of "Mistress of the Earth" at the top of altar. Sigil of Darkat on cloth in silver (or

drawn in silver on black paper).

Image or clothing od the chosen Opfer (who will be symbolically and ritualistically drained). Use the Mistress of Blood, adapted ONA sigil accordingly.

The Crystal should be held by the participants together, focusing on the Red Candle illuminated near the Darkat sigil:

"Agios Darkat" 13x.

It is imperative to conduct the chant in unison and with a slow, steady pace. Focus with your mind upon each chant, each syllable and the dark feminine aspect in the mind of the practitioner(s).

Envision dragon entering from a blackened star into the casual realm, flowing down into the crystal and through each initiate. This energy should guide the ritual towards the following announcement of intent.
"Hail to She who washes in the blood of her enemies, She who without blood becomes the Hag, yet strong

eternally. When she drinks of the blood she is but the Mother of Night Geist and Phantoms, who gathers ravenous wolves to her side, who strikes at the prey which covers in fear. When she bathes and consumes the Spirit-Soul of her Opfer she becomes the Virgin renewed again."

"Hail to Baphomet, Bride of Lucifer, who is of the Serpent and Blackened Flame, whose initiation in the devourment of the Opfer by the sleep, wherein our spirits are Free to take shape and go forth to drink of life"

"We call forth the latent powers inherent from the Black Falme of Immortality, We become her daughters and sons power, vengeance and lust. Through these do we enter the dreams of our opfers, that we may slowly drink of their lifeblood, their shadow and their soul"

"Agios O Baphomet" 9x.

Holding the Crystal, the Triad focuses upon the three aspects of Baphomet and seeks by the imagination to go forth to devour their chosen Opfer, they focus upon the slow and steady stream of shadow and spirit they are drinking of.

"To Satan, bringer of youth"

"To Satan, bringer of lust"

"To Satan, bringer of wisdom"

"We, the spawn of Chaos, devour (name) by fire and the eye of the serpent.

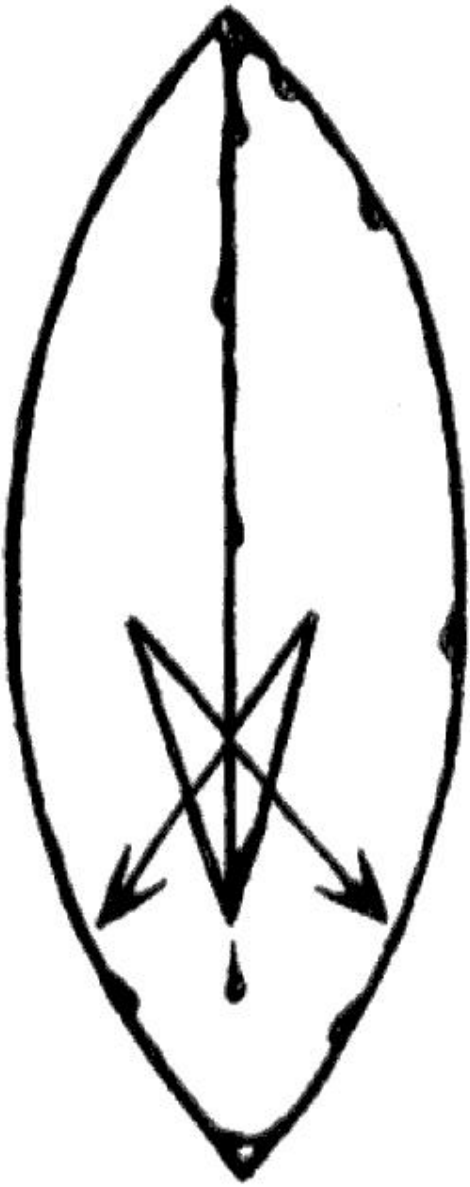
"We, the spawn of Chaos, drink deep of their life."

"Veni omnipotens aeterne diabolus!"

Burn a piece of the image (not the whole, continue using to drain from) in the Red Flame, breathing in visualizing devourment.

"Agios O Baphomet".

End of Rite



Sigil of the Mistress of Blood
